Our Doctors

Nicholas A. Moore, MD serves at both Marion Eye Center and Delaware Eye Center and received his undergraduate degree from Miami University in 2011 graduating with Summa Cum Laude distinction. He went on to earn his medical degree from Wright State University in 2015 where he graduated at the top of his class and was elected into Alpha Omega Alpha Honor Medical Society. He completed his Ophthalmology training at Indiana University School of Medicine and served as the chief teaching resident until 2019 after which he joined the Marion and Delaware Eye Centers. See Dr. Moore's full listing at marioneyecenter.com.

John R. Kroger, MD serves at both Marion Eye Center and Delaware Eye Center and received his undergraduate degree from Ohio State University in 2012 graduating with a degree in Biological Sciences. He obtained his medical degree from the University of Cincinnati College of Medicine in 2017. He then completed his Ophthalmology training at SUNY Downstate Medical Center in Brooklyn, New York. He returned to Ohio to complete a fellowship in Cornea and External Disease at the Ohio State University and came to join Marion and Delaware Eye Centers in 2022. See Dr. Kroger's full listing at marioneyecenter.com.

Steven M. Kirkham, MD serves at both Marion Eye Center and Delaware Eye Center and received his undergraduate degree from Miami University and then received his medical degree from The Ohio State University in 1991. He remained at Ohio State at the William H. Havener Eye Center for Ophthalmology training and came to Marion in 1995. He was board certified in 1996. Dr. Kirkham's special areas of interest include diabetes, glaucoma and cataract surgery. He is also responsible for managing the business of Marion and Delaware Eye Centers. See Dr. Kirkham's full listing at marioneyecenter.com.

Deanna J. Stevens, MD serves exclusively at Marion Eye Center and received her undergraduate degree from the University of Dayton in 1995 and her medical degree from The Ohio State University in 1999. During her training, she received the Honors Award in Ophthalmology as well as Letters of Commendation in Internal Medicine and Pediatrics. Currently, Dr. Stevens' areas of special interest include cataract, glaucoma care, and pediatric eye disease. See Dr. Stevens full listing at marioneyecenter.com.

Our Opticians

Diana Lothes, LDO received her optician's license in 1991. She is a member of the Optician's Association of Ohio and has participated in medical missions to Jamaica to dispense eyewear to children in need. She joined Marion Eye Center's optical department in 2017 after managing other optical facilities in the Marion area. Diana has helped to transform the services we offer to include VSP and EyeMED insurance plans, and she has broadened the selection of products we offer to include the most modern brands and lens types. If you want the most up to date products and experienced advice, talk with Diana when you visit Marion Eye Center.

Ramona Collins, LDO received her opticians license in 2007. She joined Marion Eye Centers optical department in January 2022. Ramona brings a great deal of experience from her prior optical positions. She has participated in a medical mission to Jamaica to dispense eyewear to children in need. If you want solid advice on both traditional and trendy products, talk to Ramona when you visit Marion Eye Center.

For New Patients

Welcome to Marion and Delaware Eye Centers! We are pleased you have chosen us for your eye care needs. In order to make your first several visits more pleasant, the following information is provided.

What to Expect

Our doctors prefer to see patients by appointment, unless there are emergency circumstances. An initial eye exam takes about one hour to complete and requires drops to dilate the eyes. These drops may make driving difficult for 4 hours or more. Please have a driver available for this visit. Also, please bring your glasses and a list of current medications with you to the doctor’s office.

Billing Policy

Our billing policy states that payment is expected at the time of service. We accept personal checks as well as VISA, MasterCard and Discover. You should always feel free to discuss any billing problems or concerns with our office staff or your doctor. We do “accept assignment” for persons covered by Medicare and several other major insurance carriers. Please be aware that your insurance may require you to make a co-payment for a portion of the bill on the day of each office visit.

Fees not Covered by Insurance

If we provide services to you that your insurance does not cover, you will be responsible for a portion of our total fee. A common example is that of determining your glasses prescription which many insurances do not typically cover. This fee ranges from \$40-\$60.

If you are a Medicaid recipient, please bring a current medical card with you to each appointment. This is required if you wish for Medicaid to cover the cost of your visit.

If we are not a participating provider for your insurance company, we will ask for payment at the time of service and will offer you an invoice of charges so that you may submit a claim to your insurance company, personally.

PAYMENT IS EXPECTED AT THE TIME OF SERVICE

THANK YOU
FOR TRUSTING
MARION AND DELAWARE
EYE CENTERS
FOR YOUR EYE CARE!
